

SATISFIED RESIDENTS OF ŠDL

Tilen Vidovič – top athlete, flat-water kayaker, current resident of ŠDL:

"The Student Hall of Residence Ljubljana has a fitness room in the dormitory IV, which enables me to do my training without losing time for transportation. The atmosphere among students is extremely positive. I have made great progress in a very short time. ŠDL is extremely attentive to athletes; I love that we can individually agree upon different things. That is one of the things that will help me in world level competitions."

Anja Zafošnik – Faculty of Social Sciences student, current resident of ŠDL:

"Living in a student dormitory has enriched my life, as I have gained many valuable friendships. ŠDL is extremely attentive to students, which has a positive impact on the atmosphere in student dormitories. This allows me to combine fun and regular study."

Filip Draković – student, resident of ŠDL, president of Student council of residents:

"The time I spent in the student dormitory was very interesting and dynamic. The residence hall enabled me to make new acquaintances and friends, with whom I had a lot of fun but we also helped each other in our studies. By forming part of the Student Council of Residents, I have gained a lot of experience in the fields of organisation, management, communication, etc., and a deeper understanding of the functioning of ŠDL. I recommend ŠDL to anyone who wants a social life, as well as optimal studying conditions."

 Občuti dom.

» *Feel at home* «

Ljubljana is the largest university centre in Slovenia, with the widest range of quality and diverse study programmes. Students who come to the capital from other parts of Slovenia and abroad need high quality accommodation. In Student Hall of Residence Ljubljana (Študentski dom Ljubljana, hereinafter ŠDL) we offer more than just that. In more than 65 years of operation, we have gained valuable experience that allows us to provide our residents in 29 dormitories with quality accommodation, as well as optimal conditions for study and a wide variety of activities. Individual dormitories can be found in different locations in Ljubljana, all near faculties (Rožna dolina, Mestni log, Bežigrad, Šiška and Centre). We also offer so called quiet dormitories with a particularly peaceful environment. ŠDL provides the possibility of personalised accommodation for families with children (we have our own kindergarten and playground) and students with special needs. Furthermore, we adapt to the needs of art students (painting, sculpture, music etc.), professional and amateur athletes, and students who are interested in healthy nutrition and ecology, and are environmentally conscious. In our dormitories, almost 7,500 students feel at home, as we offer them quality accommodation, leisure activities in the fields of sports and culture, and quality food. We constantly strive for mutual cooperation, respect the right to residence and mutual coexistence, raise housing culture and mutual relations, take care of counselling, emphasize the importance of completing education, open doors into the world and increase mobility of young people, and accept diversity.

For years now, the centre of the student life has been the legendary Rožna dolina, which still lives in the memory of generations of students who lived and studied there or came to visit or party. The dormitories are accompanied by several facilities: a restaurant, laundries, copy shops and others. Each student has an internet connection. There is also a reception office in Rožna dolina, where students can, in addition to receiving accommodation information, take care of formalities related to the procedures for moving in, moving out or relocation within the institution.

Over the years, the Student Hall of Residence helped create unforgettable memories for more than 100,000 students. Many of them are now prominent economists, politicians, entrepreneurs, cultural workers, athletes, in short, renowned experts at home and abroad.

» Life in ŠDL «

ROŽNA KUH'NA RESTAURANT

In the student campus Rožna dolina, we take care of all the students' needs. In the self-service restaurant and bar Rožna kuh'na, we offer subsidised student lunches, daily lunches and snacks. We pay special attention to the preparation of varied and seasonal dishes, balanced menus and daily menus for vegetarians. We make sure that the prices are favourable and acceptable for everyone, especially students. The restaurant's offer is complemented with a bar that invites you to a beautiful sun terrace. The terrace is an ideal meeting place that enables you to start your day with aromatic coffee and warm croissant.

Welcome!

SPORTS

ŠDL devotes a lot of attention to sports activities and infrastructure. By doing this, we want to increase the quality of residence for our residents and help strengthen the sport culture. Residents of ŠDL can take advantage of the many areas for social sports (volleyball, basketball, football, tennis, outdoor fitness), as well as areas for aerobic exercise and strength training. They can also visit six well-equipped fitness rooms.

Furthermore, they can attend organised exercises under professional guidance. We offer Zumba, fit, burn and aerofit exercise. We provide several activities in the field of sports. Throughout the whole academic year, we organise sport events (dances, runs, sports competitions...) and lectures on sports topics (autogenic training, relaxation, athlete's psychology...).

CULTURE

In cooperation with the Student Council of Residents, we organise Cultural Days (various workshops, lectures, stand-ups, musical and literary events, competitions, tours, exhibitions...).

Dormitory IV in Rožna dolina boasts with a musical room with excellent acoustics and a piano, which is accessible for practice to all residents of ŠDL. It is also available for musical performances, cultural events etc.

STUDENT COUNCIL OF RESIDENTS

Student Council of Residents is a body of the ŠDL institute, which enables residents to share their ideas. It is in charge of diverse projects: May games (Majske igre; a 3-week festival with four concerts and six cultural evenings, complemented with more than 40 competitions in various sports disciplines), the biggest student carnival, cultural days, the resident newspaper "On our own land" (Na svoji zemlji), Saint Nicholas Day, dormitory parties... <http://www.ssvets.si/>
